

Zip-Shield®

Protective Jacketing System with EMI Shielding

Re-Enterable Shielding

EMI-shielded cable jacketing systems that allows you to easily re-enter your bundle.

The **Zip-Shield®** family of products is tried and true, having been field tested for many years. Zip-Shield® provides excellent EMI/RFI shielding results as an all-in-one cable protection and bundling solution.

These products feature an exterior protective jacket that is heat sealed to a re-enterable, pressure-track closure system using either our Z-Track, D-Track-LT, EZ-Track®, or R-Track. Zip-Shield® is available in a variety of diameters, colors, jacketing materials, shielding options, and, depending on your choice, may also include a sewn-in ground wire.

Easily shield and protect an entire cable bundle. Optional sewn-in ground wire available
